

**RENK AG: Q1/2010 interim report pursuant to  
Sec. 37x German Securities Trading Act (“WpHG”)**

**RENK off to a good start in fiscal 2010**

Compared with Q1/2009, a period overshadowed by the economic and financial crisis, RENK reports a clear recovery in order intake, new orders soaring 62% from 68 million euros to 110 million euros. Thanks to a sizable shipment of vehicle transmissions, sales at 110 million euros were at the Q1/2009 level of 111 million euros.

With margins still robust, the Q1 operating profit climbed from 15 million euros in 2009 to 16 million euros this year.

For all of 2010 and prompted by the expected transmissions large order contract for the German infantry fighting vehicle PUMA, RENK is expecting an order intake of around 500 million euros, albeit receding revenue will erode year-on-year operating profit. By flexibly responding to this situation, it is hoped, nonetheless, to close the year with a satisfactory EBIT margin (ROS).
