

RENK AG: Q1/2009 interim report pursuant to Sec. 37x Securities Trading Act (“WpHG”)

RENK now experiencing the effects of the economic crisis

The shrinkage in order intake suffered by Germany’s export-reliant mechanical engineering industry has now impacted on RENK, too:

First-quarter order intake slumped 40% from the year-earlier 115 million to 68 million euros in 2009. In stark contrast, Q1 sales shrank by a modest 6% from 119 million to 111 million euros.

In line with the sales trend, the Q1 operating profit (EBIT) diminished from 19 million to 15 million euros, and net income (EAT) from 13 million to 10 million euros. RENK’s earnings per share came to 1.52 euros (down from 1.95).

RENK expects sales and operating profit for all of 2009 to show a moderate decline.
